

The International Parkinson and Movement Disorder Society (MDS) 2023 International Congress

The students of our department, Ms. Agrimaki and Ms. Syriopoulou, presented a paper at the International Parkinson and Movement Disorder Society (MDS) 2023 International Congress, which took place in Copenhagen, Denmark. Their project involved acoustic analysis of speech in a rare neurogenetic syndrome. Their work was published in the *Movement Disorders* journal (impact factor 8.6).

Agrimaki, V., Siroiopoulou, S., Zamba-Papanicolaou, E., Christodoulou, K., & Konstantopoulos K. (2023). Quantitative analysis of speech diadochokinetic rate in hereditary spastic paraplegia SPG3A. [Abstract]. *Movement Disorders*, 38 (Suppl. 1), S801-S848.
